Do not touch the other window; wood floor; brick walls; cabinetry; appliances; electrical; structural; new casing/stool; or rot repair.

Assumptions & items to confirm

Pricing basis Your online submission and the document you uploaded: public-kitchen-existing.jpg.

Assumptions	• Do not touch the other window as explicitly excluded. • Do not install new casing, stool, or perform rot repair as explicitly excluded. • Keep wood floor, brick walls, cabinetry, appliances, electrical, and structural unchanged as excluded by scope. • covers the standard 3'x4' white vinyl window, product, and install, in existing opening, includes standard retrofit weatherproofing. • covers the removal and disposal (demolition) of one window. • No new window casing, stool, or rot repair is included (per explicit user exclusions). • No added painter, floor, or wall repair-preserved all listed exclusions. • Work area is the kitchen, ground floor, single-building project. • Replace one kitchen window with contractor-supplied white vinyl double-pane window, 3' wide by 4' high, in existing opening. Includes removal and disposal of existing window and weatherproofing around new window.: covers both product and installation of one replacement vinyl window in an existing opening, including standard weatherproofing.
-------------	--

- Replace one kitchen window with contractor-supplied white vinyl double-pane window, 3' wide by 4' high, in existing opening. Includes removal and disposal of existing window and weatherproofing around new window.: covers removal and haul-off/disposal of one replaced window.
- Replace one kitchen window with contractor-supplied white vinyl double-pane window, 3' wide by 4' high, in existing opening. Includes removal and disposal of existing window and weatherproofing around new window.: No product or labor lines for the second window (explicitly left untouched by scope).
- Replace one kitchen window with contractor-supplied white vinyl double-pane window, 3' wide by 4' high, in existing opening. Includes removal and disposal of existing window and weatherproofing around new window.: No new casing, stool, or rot repair included-see separate trim repair line and explicit exclusions.
- Repair and resecure 6 linear feet of existing interior window trim. No new casing or stool package, does not include material for new casing/stool or rot repair.
- Repair and resecure 6 linear feet of existing interior window trim. No new casing or stool package and no rot repair.: Scope excludes replacement-only minor resecure/reattach of existing interior trim, max 6 LF.
- Repair and resecure 6 linear feet of existing interior window trim. No new casing or stool package and no rot repair.: No painter or finish material lines unless directed by scope.
- Repair and resecure 6 linear feet of existing interior window trim. No new casing or stool package and no rot repair.: Explicitly excludes new trim, base, casing, stool, and rot work.
- Replace one kitchen window with contractor-supplied white vinyl double-pane window, 3' wide by 4' high, in existing opening. Includes removal and disposal of existing window and weatherproofing around new window.. Includes haul-off, 1 EA. Remove one existing window and dispose of debris per requested scope; one window in kitchen per revision.
- Replace one kitchen window with contractor-supplied white vinyl double-pane window, 3' wide by 4' high, in existing opening. Includes removal and disposal of existing window and weatherproofing around new window.. 1 EA. Install one white vinyl double-pane window, 3' x 4', in existing opening. and installation for a standard vinyl window, retrofit/remodel context. Weatherproofing is standard inclusion in replacement install.
- covers both product and installation of one replacement vinyl window (3'x4') in an existing opening, including standard weatherproofing.
- covers removal and disposal of one replaced window, including haul-off, for a single window replacement.

- Trim repair line is strictly for minor labor repair/reattach of existing trim per scope; excludes any casing/stool material or rot repair.
- No paint/touch-up line included, as excluded by trim repair scope.
- Idaho.
- Standard scheduling; priority or emergency work is not included.

To confirm

- (finish carpenter labor, per hour) is modeled as a 0.5 hour allowance for 6 LF minor trim repair/resecure, matching typical task rates; actual site conditions may affect final labor required.
- Replace one kitchen window with contractor-supplied white vinyl double-pane window, 3' wide by 4' high, in existing opening. Includes removal and disposal of existing window and weatherproofing around new window.: Exclusions confirmed: Do not touch wood floor, brick walls, cabinetry, appliances, electrical, structural components (all per user exclusion list).
- Repair and resecure 6 linear feet of existing interior window trim. No new casing or stool package and no rot repair.. 0.5 HR. ALLOWANCE: Modeled repair is for minor, spot resecure/reattach tasks only-no new trim, casing, or rot repair. Typical finish carpenter repairs/resecuring minor trim pieces average 10-15 LF per hour. 6 LF requested = 0.4-0.6 hours; use one 0.5 HR labor allowance by finish carpenter. Adjust actual hours if field conditions require longer/more complex repair.
- is a finish carpenter labor-only rate for minor resecure/reattach of interior trim; 0.5 HR allowance covers typical 6 LF light repair. No material or new trim included.
- Exclusions (other window, new trim/casing, floor, brick wall, cabinetry, appliances, electrical, structure, rot repair) confirmed as not costed.
- Quantity for finish carpenter labor is an explicitly disclosed modeled allowance (range 0.4-0.6 HR for 6 LF minor repair), pending field verification.
- Owner-approved estimating catalog (P5 Cost Database).
- All allowance bases, modeled quantities and quantity ranges are fully disclosed.

Timing

Start and completion dates are confirmed with your final proposal.

Next steps

- 01 Request a project review**
Reply to your estimate email or contact us with your estimate number.
- 02 Confirm the details**
We'll verify measurements, selections, existing conditions and the scope of work.
- 03 Receive your final proposal**
You'll receive a written proposal with confirmed scope, pricing and scheduling requirements.
